PneumaticScaleAngelus' product line includes the most advanced filling, capping, labeling, seaming, change parts and centrifuge technologies. We design our equipment to the unique specifications of our customers, and we engineer solutions for the world's most efficient and innovative machines.

New Equipment

The center of excellence for PneumaticScaleAngelus' New Equipment Value Stream is our assembly hall in Stow, Ohio. It is a campus environment enabling us to foster better relationships with our customers. There, new equipment is organized into value streams for filler, capper and seamer lines. Devoted engineers, diverse sales professionals and committed project managers share the common goal of serving our customers.

After-Market

The PneumaticScaleAngelus After-Market team located in Akron, Ohio, serves as a primary component to the customer service value structure. Our team is responsible for supporting all makes and models—including vintage—installed over the last 100 years of our company's existence. Our After-Market services include upgrades, change parts, rebuilds and certified pre-owned equipment. With a dedicated team of sales professionals, engineers, application specialists and project managers, the PneumaticScaleAngelus After-Market

team is here to provide the highest level of quality, technical support and innovation for our customers.

Customer Service

Our Customer Service Team supports all machines manufactured since our inception in 1895. OEM parts and experienced customer service personnel are key to maintaining the integrity and service of our machinery. We strive to offer quality parts and superb service. Our knowledgeable and friendly staff is dedicated to creating a positive customer experience with insightful information and responsive communication.

Field Service

PneumaticScaleAngelus maintains a complete field support staff of highly trained technicians, specialists and engineers to service the wide range of packaging equipment made. Full-time service representatives are located throughout the United States and around the world for fast response times.

PneumaticScaleAngelus is one of ten operating companies within the Barry-Wehmillers family, a leading supplier of engineering consulting and manufacturing technology across a broad spectrum of industries. With more than 8,000 team members spread among 100-plus locations around the globe, we remain united by a common belief: we can use the power of our business to build a better world.
